

Environmental Policy & Statement of Intent

The Aspire Electrical Ltd 'Integrated Management System' applies to the design, installation, maintenance, inspection and testing of electrical systems and infrastructure, including all associated support processes managed out of the Newton Abbot head office.

All persons conducting activities under the name of Aspire Electrical Ltd will adhere to this Environmental Policy.

Aspire Electrical is fully committed the protection of the environment, including the prevention of pollution, and to deliver this pledge, shall:

- Identify and manage environmental aspects and impacts associated with its work;
- Identify, and meet or exceed all legal and other compliance obligation, codes of practice and regulations relating to its environmental aspects;
- Plan and control operations in order to minimise impacts and disturbance to neighbours and the general public;
- Provide assistance, training and information that may be necessary to personnel working under the control of the company;
- Use materials and resources efficiently and with regard to long-term sustainability;
- Apply the 'Waste Hierarchy' to eliminate or minimise waste wherever possible;
- Provide a prompt and suitable response to environmental incidents and emergencies;
- Set and regularly review objectives, targets and programmes to assist in improving environmental performance across the company;
- Enhance environmental performance by driving continuous improvement of the environmental management system; and
- Promote environmental awareness and good practice amongst workers
